M'KINLEY DAY BANQUET TODAY IS POSTPONED

Speaker Is Unable to Be Present So Event Will be Held on Lincoln's Birthday Instead

The McKinley day banquet scheduled for this evening at Elks' hall has been postponed until Lincoln's birthday on Feb. 12. This announcement was made today by the committee in charge.

This decision was arrived at on receiving word from Dr. W. E. Wenner, the speaker of the evening that he would not be able to be present. Dr. Wenner is a member of the State legislature, that has before it important tax legislation necessary to be determined at once. It is also the desire to adjourn this week, and consequently the representative believes that it is every man's duty to be on the job, remain at his post, and have a part in the work.

Those who have secured tickets should keep them until Lincoln day as they will be good at that time.

ELYRIA DOCTOR RELATES CARE GIVEN YANKS

Delivered Address at Kiwanis Club Luncheon This Noon

Dr. G. E. Meyer, of Elyria, who served as a Lieutenant, senior grade, in the United State Navy medical corps during the World War addressed the members of the Kiwanis Club at the luncheon in the Andwur Hotel, Thursday. Dr. Meyer told of the hospital work done aboard the transports during the first part of the war when the medics were responsible for the health of more than 5,000 soldiers and officers aboard each big ship on its way to France. The speaker told of the work done at Brest and other points of embarkation.

After the big drives on the western front with the great number of men sick and wounded and unable to participate in any more fighting the war department saw the need of putting hospital ships into service to bring the boys home. Dr. Meyer was assigned to the hospital ship "Mercy" and described the first trip through the submarine zone, the whole ship being ablaze with light after dark so that enemy submarines could not mistake it for a man-of war. The personnel on board the ship could not but feel a little nervous, the speaker said, as the ship made an excellent target for prowling subs with unscrupulous commanders. However the trip was uneventful.

On the first trip of "The Mercy" it brought the worst hospital cases back to the States. Dr. Meyer stated that entertainment was provided each day for the boys to keep up their morale. The hospital equipment was of the very best and General Pershing after an inspection of the ship at Brest complimented officers and men on the good work.

In concluding, Dr. Meyer, stated that the navy doctors did everything possible for the boys and they could have received no better treatment on land. Many of the cases handled were very severe ones and the navy did their bit in bringing the boys back home in the best condition possible.

POLICE CLEAR ONE THOUSAND ON BIG DANCE

Police Chief Stankard reports that the policemen's dance held last week for the benefit of the police pension fund was very successful.

The trustees also appropriated $60 to apply on the doctor's bill for Patrolman Lloyd Sweet, who recently underwent an operation at the hospital. This was a voluntary act on their part, but all the policemen felt that as the patrolman had had such hard luck with sickness in the past two years that they wanted to do something for him.

"REDS" CHALLENGE CHURCHES, UNIONS

Trade Affiliations Declared a Bulwark of Capitalism, Majority Rule is Mocked, In Communist Manifesto Issued by Red Leaders, Who Urge U. S. Workers to Seize Control of All the Factories in the Nation

Washington, Jan. 29.—All religion is derided and a direct challenge is hurled in the teeth of American churches by the Communists of the United States in manifestos issued by their leaders.

Churches are lashed as sapping the courage of mankind with lying fables and chimerical heavens and as mainstays of economic and social injustcies.

Trades unionism is branded a bulwark of capitalism.

Majority rule in the United States is mocked, and workers are urged to unite, arise and seize all the industrial establishments of the nation to effect a Communist Utopia.

These manifestos, seized by the United States department of justice agents in raids, have been published in a pamphlet as an official document by the government printing office.

They comprise an illuminating series of exhibits collected by Attorney General Palmer through government agencies, including the complete texts of the manifestos of the third Communist international at Moscow last March; the constitution, manifesto and program of the Communist party of America, and the manifesto of the Anarchists-Communists, organized as the Federation of Unions of Workers of the United States and Canada.

These and other remarkable documents answer completely and convincingly questions as to what the Communist party is, what are its principles and program and what it intends to do in the United States.

What Triump Would Mean.

What does a triumph of communism mean for the church, religion and religious institutions?

This is the answer as contained in the Anarchists-Communists' manifesto, published in New York city last year:

"We hate religion because it lulls the spirit with lying tales, takes away courage and faith in the power of man—faith in the triumph of justice here on real earth and not in a chimerical heaven. Religion covers everything with fog; real evil becomes visionary and visionary good a reality. It has always sanctified slavery, grief and tears And we declare war upon all gods the religious fables. We are atheists."

"We are atheists; we are Communists; we are anarchists!" is the Anarchists-Communists' terse summary of their doctrine.

The manifesti closes with the following paragraph:

"To you we address our speech, our brother workman! Wake up look around you! See how poor and degraded you are! Remember that you are a man, and that you—you created all of that world of wealth! Understand that the workers of all countries are your brothers, and that you all have one task—to destroy the world of gain and create a world of freedom. For all there is one means—an armed insurrection and forcible seizure of all instruments and all products of toil. Woe to the enemies of the laboring class."

Effect Upon Industry.

What would communism do to American industry?

It would paralyze it by applying the Bolshevist confiscation formula.

Following is an extract from a pamphlet headed "Your Shop," published in Chicago by the Communist party of America:

"The workers must organize to secure control of the shops. The first step is to organize a shop committee in the shop in which you work.

"Bring together all the enlightened workers who are ready to participate in the struggle to win control of the shop. Organize them in a Communist party shop branch. This committee will carry on the work of agitation and education among the other workers. It will collect funds and secure papers and pamphlets for distribution in the shop.

"The work of the committee will be to unite all the workers in the shop in a shop organization—machinists, carpenters, shipping clerks workers of every trade, all must unite in the ship.

Must Seize Shops.

"Workers! You must build up the organs of working class power if you are to win your freedom. The shop organization is the basis for the organization of the mass power of the workers.

"Prepare to take control of your shop, of your work, of your lives, of your happiness.

"ORGANIZE AND MAKE IT YOUR SHOP."

What does the communism mean for union labor?

This is the answer contained in the official manifesto and program of the Communist party of America, organized in Chicago last September:

"Today dominant unionism is mutually, a bulwark of capitalism, merging in imperialism and accepting state capitalism. Industrial unionism cannot conquer the power of the state. Under the conditions of capitalism it is impossible to organize the whole working class into industrial unions. It will be necessary to rally the workers, organize and unorganized, by means of revolutionary mass action."

What does communism mean for the representative government, democratic institutions and majority rule as guaranteed by the United States constitution?

Sneers at Majority Rule.

Communism, its official utterances show, deny that the American government is representative or democratic and sneers at majority rule and the constitution. Following is an extract from a proclamation issued by the Communist party of America last fall while both the steel strike and the coal strike were in progress:

"Workers," it began, "you have been told that the government of the United States is a government 'of the people, by the people, and for the people.' The Communists have told you that it is a government 'of capitalists, by the capitalists, and for the capitalists.' The proof is before you."

The alleged proof is the government's course in maintaining law and order during these strikes.

That the Communists of the United States confidently expected to turn the crisis, first into a general strike of all workers, and then into revolution by "mass action," is indicated by the closing paragraph of this proclamation. It reads:

"Workers, rally to the support of the miners. Make their strike general. Unite for the struggle against industrial slavery. Take from the capitalists the power through which they seek to increase your slavery."

By the publication of these and similar documents contained in the pamphlet, Attorney General Palmer hopes the people of the United States will come to understand what Communism means and what

Communist Defi To U. S. Churches

The following challenge to the churches, religion and Christianity forms part of a pamphlet just issued as an official document by the United States government.

The Communist document reads:

"We hate religion because it lulls the spirit with lying tales, takes away courage and faith in the power of man—faith in the triumph of justice here on real earth and not in a chimerical heaven. Religion covers everything with fog; real evil becomes visionary and visionary good a reality. It has always sanctified slavery, grief and tears. And we declare war on all gods and religious fables. We are atheists."

"We are atheists! we are Communists; we are anarchists!" is the Anarchists-Communists' terse summary of their doctrine.

ISN'T SCIENCE WONDERFUL!

FOR THE BOYS AND GIRLS OF LORAIN COUNTY

Where Mable Failed

BY MOLLIE PRICE COOK

Mable wanted an old-fashioned costume for a play. Grandmother had in her cedar wood chest an old lace dolman, poke bonnet, bodice, and hoop skirts of the early forties. Mable imagined herself in these lovely garments—the envy of every other girl in school.

Grandmother was short sighted and her hands trembled as she sewed a button on Mable's dress one morning. It angered Mable. She was in a hurry and told Grandmother so in a tone of voice not altogether pleasant. That afternoon she burst into the living room with, "Grandmother, I must have one of your old dresses to wear at our play. Give me the key to your chest so that I can pick out what I want."

Grandmother looked calmly out of the window with her thin lips shut tight. She said nothing nor did she move from her chair. It would have been easier to push a donkey up hill than to move that determined old Grandmother. Mable stamped her foot and told her mother what she thought of peevish old ladies.

In came Marian, the girl next door, bringing a small box of sugared dates she had made herself.

"I'm giving you these," she said "because I haven't any grandmother of my own."

Grandmother smiled and as she moved to pat Marian's hand, her glasses fell off. Marian picked them up and laughingly helped her put them on.

By and by, Grandmother asked, "Are you in that play at school?"

"Yes ma'am."

"Have you a costume?"

"Not yet, I simply can't find anything."

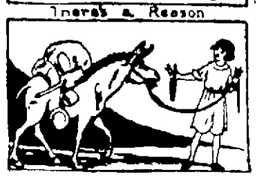

"Humph," exclaimed the old lady, "We'll see to that. Come along with me."

They went to her room and the chest was opened revealing the frills and furbelows of bygone days. Marian was fitted out with the nicest things in the chest.

As you see Mable tried to force Grandmother and was met with force. But Marian led Grandmother to help her with an invisible thread. She did it naturally and with perfect sincerity. This invisible thread was TACT—tact based upon kindness, sympathy, and a consideration for the feelings of others.

The Cart Wheel

BY DR. E. D. ANGELL

When Ralph and Allen arrived at Beppo's barn, without a word to the startled little clown, they jumped for the mat. Together, and in perfect time, the two boys did three Roll-Overs in succession, finishing the last one standing proudly erect. They then made a deep bow in the best professional manner, and looked toward their teacher for his approval. "Fine work," said Beppo, "if you learn all the tricks as easily and quickly as you have learned the Roll-Over, you'll have me hustling for my job before another circus season opens."

"Are you going to teach us another trick today Mr Beppo?" asked Ralph

"You bet, and this is what it is," said Beppo, as he started off on a row

of Cart Wheels that took him completely around the barn floor.

Points to Watch

"Now," said Beppo, "let's get down to business, and remember my instructions—a Cart Wheel, to be perfect, done, must look just exactly like a wheel with only four spokes, and no rim. You mustn't bend at the waist any more than is absolutely necessary, and when the legs are in the air the body must be perfectly rigid. Head back, chest out, and arms and legs straight.

How to Do It

"You take a short quick step like this," said Beppo, talking as he did it—"turn slightly to the right as the left foot is forward—place the left hand on the ground—then the right hand—get the legs well in the air, and straight—right leg comes down—then the left leg comes down—and when you come to a standing position lean a little backward as this gives a better effect. Now, boys, go to it on the mat, and don't try to do more than one Cart Wheel at a time." The boys began their practice as Beppo, in one corner of the barn, rehearsed a juggling stunt which he was going to use in next season's circus.

(Tomorrow Mr. Hyde will tell what is under the pavement.)

WHO'S WHO?

AUSTIN CHAMBERLAIN

In British diplomatic circles there is a good deal of speculation regarding the successor to Lord Grey as ambassador to the United States Viscount Grey, in spite of ungenerous criticism hurled at him during his tenure as foreign secretary is regarded by European diplomats as one of the best informed men on world affairs

A CHAMBERLAIN

Among a dozen men mentioned in England as future ambassador to that country, one persistently talked of is Austen Chamberlain, chancellor of the exchequer

Austen Chamberlain's father, the great imperialist Joseph Chamberlain, it will be recalled, married for his second wife Mary Endicott, an American woman Mary Endicott's companionship of her illustrious husband during the seven years he survived after being stricken with paralysis is one of the noblest examples of a woman's devotion in recent history.

The Chamberlains are democrats that repeatedly have declined titles They came from the people and prefer to remain plain "Misters." That is one reason why it is believed Austen Chamberlain would prove particularly acceptable to Americans Another is the connection provided by Mary Endicott

Joseph Chamberlain laid the foundations of his fortune in the screw and tack business, but the family was interested in a big firm of iron founders and also in Kynochs, the British amunition firm sometimes called the Krupps of England Arthur Chamberlain, brother of Joseph, was head of Kynochs for many years and also leader of the national temperance party In religion they are Unitarians

WITH THE WOMEN OF TODAY
By EDITH MORIARTY

What a place this world would be without the visionaries and the good Samaritans. They are always giving the world something to think about, sometimes it is something to laugh at, again it is something to marvel at, or perhaps something to revere. Often it is a woman who makes the world laugh at her impractical and foolish visions but just as often it takes the woman to land some way of alleviating some of the pains of the world which nobody else ever thought of.

It seems that Miss Helen Todd has evolved a plan, a vision it might called, which ought to work out in a practical and helpful manner. It is her ambition to form a "Woman to Women" committee, whose members will get acquainted with the wives and children of strikers and try to get the facts of labor disputes through them. Miss Todd is so in earnest about her plan and she thinks it so feasible that she has taken an old house in the Highlands in New York and hopes to open it as a co-operative country club. The club will be for women who have wrestled with strikes all week and wish to get away from the noise and grime of the city to the quiet of the country.

It sounds like a good plan for the families of the strikers but it may be a little hard to get capitalists interested in it to the extent of giving donations for its maintenance. Miss Todd, however, may not need any assistance in financing her very worth-while project.

Miss Helen Todd.

U. S. WOMEN SHUN IMMODEST DRESS

"The American woman is the best dressed woman in the world, and she is the best built woman in the world. There is a sprightliness, a charm, a fascinating chic about her that is lacking in European women, due, perhaps to the wholesome freedom of thought and action she enjoys."

So said David N. Mossessohn, executive director of the Associated Dress Industries of America. His defense was apropos of the discussion aroused by a recent letter of Cardinal Amette, in which he spoke of the "immorality of certain dresses," which brought from Mme. Paquin, French creator of fashions, the comment that the wearer of the immodest gown is to be condemned rather than its creator.

"The manufacturers of women's dresses in America certainly agree with Mme. Paquin," Mr. Mossessohn said. "The gowns created in America—and American manufacturers are trying to make New York the fashion center of the world—are modest. The daring modes are copied from garments worn by European women. The type of American women who demand these so-called immodest styles is decidedly in the minority."

Women of this country learned to appreciate American designed and American made clothes during the war, Mr. Mossessohn said, and consequently the demand for importations is less than it was before the war.

DEMOCRATS WANT WOMAN

Charles Boeschenstein, national committeeman from Illinois, and Mrs. George Rose, of Chicago, are among the members of the committee on arrangements for the Democratic national convention announced recently by Chairman Homer Cummings. Miss Mary Foy, of California, also was named, this being the first time women have been included in the committee personnel.

Nervous Women

Nothing is so good for you as Vinol, our Cod Liver and Iron Tonic. It invigorates the nerves and creates strength.

Here is Reliable Proof:

Union Hill, N. J. — "I suffered from a nervous breakdown, was anaemic, thin, had a stomach trouble and could not eat, sleep or work. I had doctored without benefit until one day I read about Vinol, and after taking one bottle I began to improve. It strengthened my nerves, gave me a good appetite, and I sleep well and feel better in every way." — Mrs. CHARLES WEST.

The reason Vinol is superior to any other remedy is because it contains the oldest and most famous body-building and strengthening tonics known to medicine.

Your money back if it fails.

FAMILY CALLS TO MARSHALL MORE THAN PRESIDENCY

The latest photo of Mrs. Thomas R. Marshall and Morrison.

It is believed that one of the reasons for Vice President Marshall spurning a chance to seek the presidency is his desire to have more time with his family. During the war the vice president's duties were far more pressing than ever before. Marshall had little time to spend with his wife and little adopted son.

MAGGIE TEYTE, Soprano

Maggie Teyte was born in Wolverhampton, Staffordshire, England. At the age of six her father, a pianist of exceptional ability, discovered that she had a voice, and four years later she was enrolled as a pupil at the Royal Conservatory of Music in London. When she was thirteen she came under the instruction of Jean de Reszke in Paris, making her debut at the age of seventeen in the opera at Monte Carlo. Her Paris enthusiasm at Covent Garden, London, before coming to America, where she made her first appearance in "Cinderella" in the Metropolitan Opera House. In this country Miss Teyte has been one of the leading sopranos with the Boston National Grand Opera company and the Chicago Opera company, where her interpretation of the roles of Mimi, Marguerite and Butterfly in particular have placed her among the foremost operatic stars of the day. Her concert work has been equally as successful as her operatic appearances, special fame attaching to her interpretations of the songs of Debussy. It was to Miss Teyte alone that Debussy would entrust the first public performance of his songs and it is agreed that her interpretations of the French composer's songs bear the stamp of marked individuality.

Miss Teyte will sing here Tuesday evening, February 10, in the Dialor theatre, in a joint recital with the Irish tenor, Allen McQuhae.

THIS IS A COMPLETE MAP OF

EASTERN HEIGHTS

Any land outside of these boundaries is not a part of EASTERN HEIGHTS any more than Ridgeville is a part of Elyria. EASTERN HEIGHTS is the name of a tract of land which with the exception of the land north of Princeton Avenue, East of Park Avenue and west of Prospect Street is being developed only by THE EASTERN HEIGHTS LAND CO.

Keep This Map

It may save you many dollars. By referring to it you cannot be deceived by solicitors selling lots in subdivisions which they may claim are a part of Eastern Heights.

300 Acres

of completely improved restricted residence property

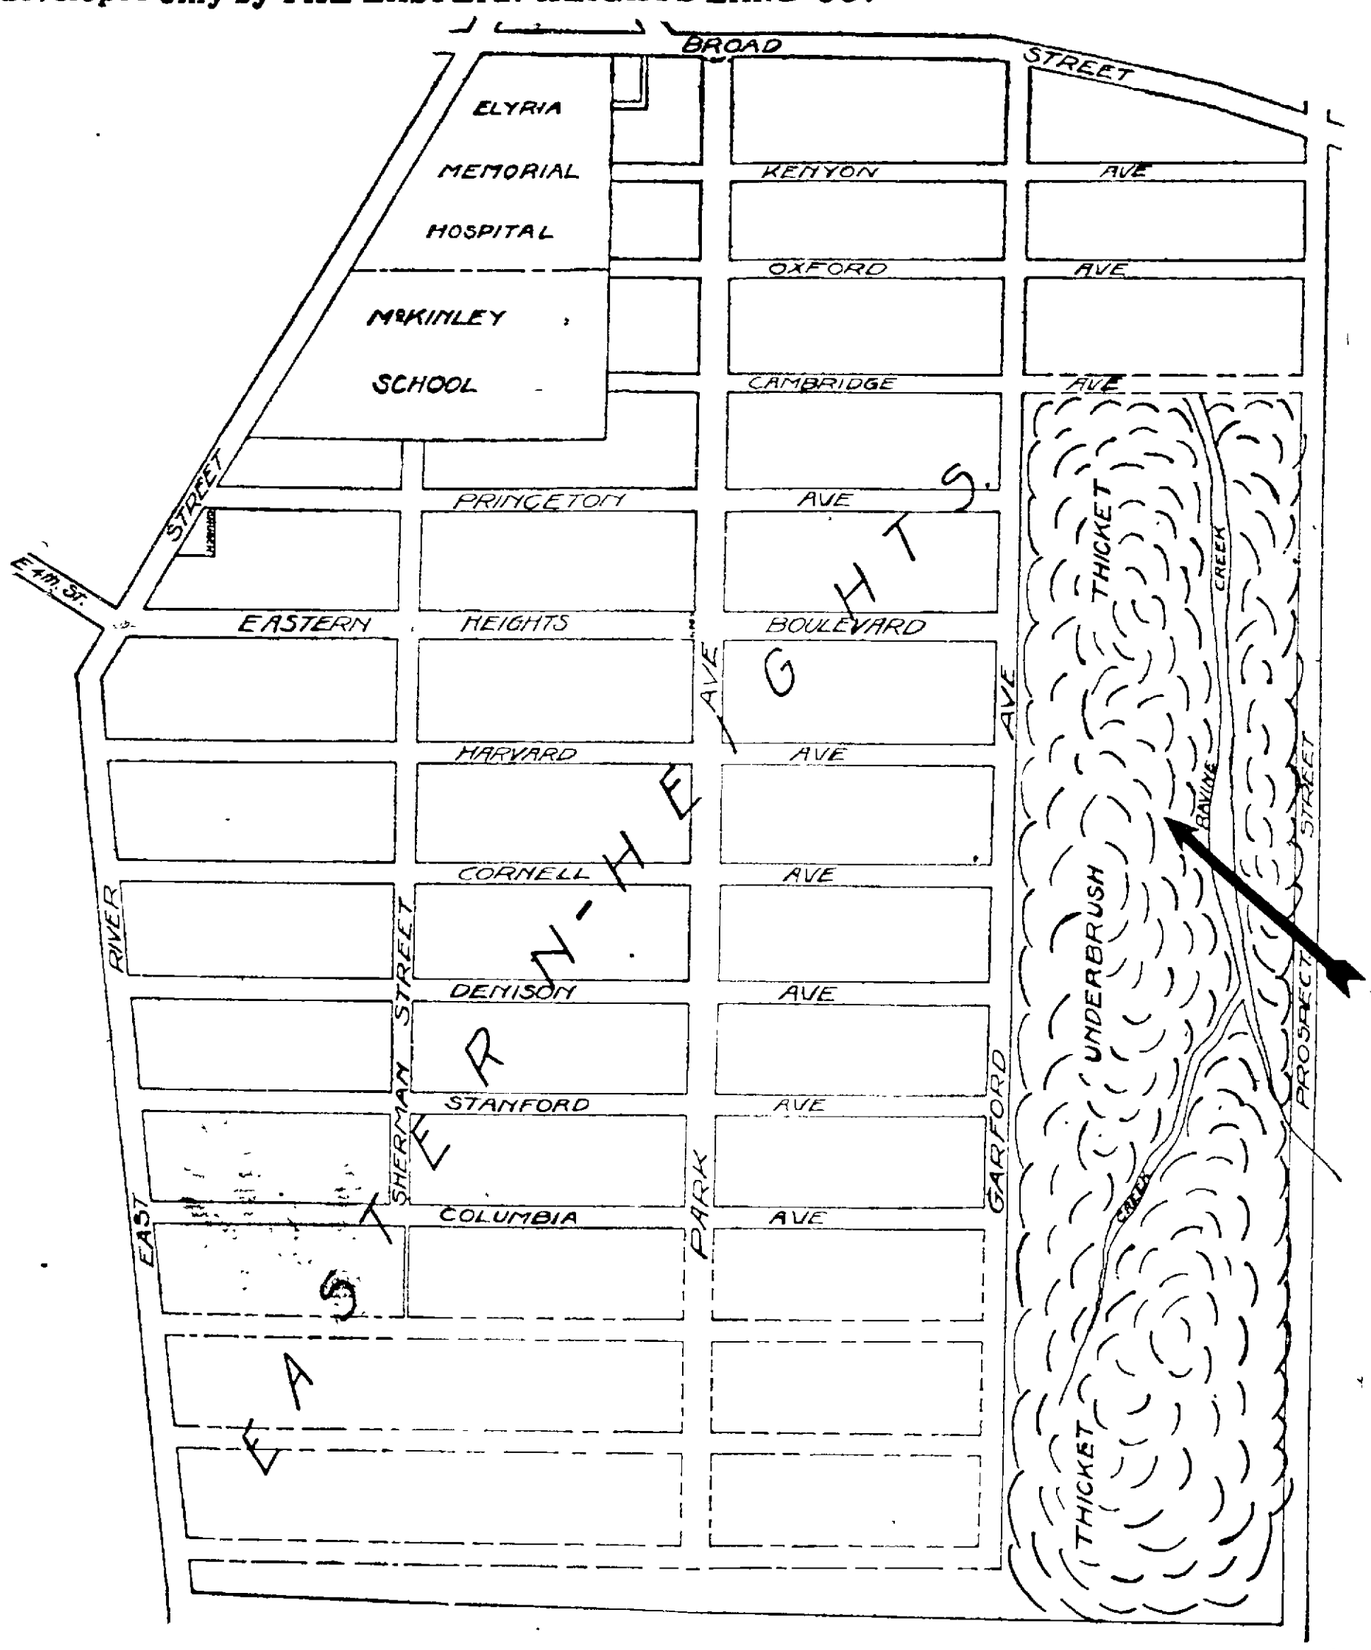

450

Modern Dwellings

have already been built on EASTERN HEIGHTS. One hundred and forty of them were built in the year of 1919.

This is nearly one-half of all the dwellings erected in the ENTIRE City of Elyria during the past year.

A remarkable growth? Yes—but only in keeping with the annual progress on EASTERN HEIGHTS.

Each Year

THE EASTERN HEIGHTS LAND COMPANY

Continues Its Development Work

to keep up with the steady demand for home sites from discriminating buyers.

At present the supply exceeds the demand, but we are putting forth our best efforts to take care of those who are patiently waiting for select locations.

Our equipment for this work is complete. We have:

A steam shovel for excavating for pavements;

A large sewer digging machine for the many miles of sewers necessary for so large an undertaking;

A backfiller, concrete machines, etc.

All the work is done by experienced men by day work under our own supervision. This insures the highest quality of street improvement regardless of cost.

Our Plans for 1920

Call for the extension of Garford Avenue south from Eastern Heights Boulevard to Columbia Avenue. Harvard, Cornell, Denison and Stanford Avenues will be extended from Park Avenue to Garford Avenue. Columbia Avenue will be opened from East River Street to Garford Avenue, while Park Avenue will again be extended to the south as fast as the work can be carried forward.

Nearly three thousand feet of sewer has been laid and a thousand feet of grading done on these streets already.

The improvements on these streets will all be of the same high character as those already on Park, Denison and Stanford Avenues. They include Sewers, Walks, Curbing, Pavement, Electricity, Telephones, Water and Gas.

So many people have asked us for lots on these new streets that we are now making reservations in the following manner:

You may select the lot you want from the plat and we will hold it for you until July first, WITHOUT a down payment. Then on July first if you still want the lot pay us $50 down and pay the balance in easy monthly installments. If on that date, July first, you decide you do not want the lot just tell us, we will cross your name off the reservation freely and willingly and you will not owe us one cent.

As in the past there is no extra charge for improvements for they go with the lots. There are no special taxes or assessments. The job is complete, even to trees and lawns and every lot is ready for a modern house. ASK TO SEE A PLAT AND MAKE YOUR RESERVATIONS NOW.

N. B.—This is the first opportunityever presented to you to secure a lot without a deposit. It will not be offered again.

KENTUCKY'S 1919 TOBACCO CROP NOW GOING ON MARKET

Kentucky tobacco in the field, on the way to market, and on the market.

Prohibition has not hurt Kentucky. the tobacco-raising farmer holds, for what has been lost to the state in finances is more than made up by the tremendous tobacco crop now going on the market. Over 2,000,000,000 pounds will be sold this year for a total of more than $100,000,000. In 1910 tobacco was bringing ten to twelve cents a pound; now it is bringing fifty cents to $1.25 a pound.

MANY ELYRIANS GET PENSIONS FROM TUBE CO.

The ninth annual report of the United States Steel and Carnegie Pension fund has just been issued showing the distribution during the year 1919.

Former employees of the National Tube Co., who by reason of age or disability are entitled to participate in the fund received $10,756. A number of Elyria men are drawing pensions from this fund, being entitled to $21.55 per month.

STOMACH UPSET?

Get at the Real Cause—Take Dr. Edwards' Olive Tablets

That's what thousands of stomach sufferers are doing now. Instead of taking tonics, or trying to patch up a poor digestion, they are attacking the *real* cause of the ailment—clogged liver and disordered bowels.

Dr. Edwards' Olive Tablets arouse the liver in a soothing, healing way. When the liver and bowels are performing their natural functions, away goes indigestion and stomach troubles.

Have you a bad taste, coated tongue, poor appetite, a lazy, don't-care feeling, no ambition or energy, trouble with undigested foods? Take Olive Tablets, the substitute for calomel.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color. They do the work without griping, cramps or pain.

Take one or two at bedtime for quick relief. Eat what you like. 10c and 25c.

GASOLINE LEVEL

If the gasoline level is too high the carbureter will be flooded, while if it is too low there will be a tendency toward lean mixture and difficult starting. For satisfactory operation it is important that the carburetor float be adjusted so that the gasoline level is about one thirty-second of an inch below the outlet of the lowest nozzle.

SANDUSKY HIGH PLAYS ELYRIA HERE FRIDAY

Friday evening, Sandusky High school will send her band of basketball warriors here to do battle with the local team. Sandusky is a somewhat unknown quantity this year, but there is no doubt that she will give the Elyria quintet a hard battle. Sandusky was defeated by Lorain last Friday and if they are defeated there it will put them out of the running for the basketball championship. On the other hand, a winning Friday night's game remains Elyria's only chance for the pennant. Both teams are after the title so fans look for a hard contest.

The Elyria Tigers will play a preliminary game with Oberlin Business College. The Tigers have a snappy little bunch of players and will try their hardest to send the Oberlin boys home with the small end of the score. Oberlin Business College has a team which will be hard to beat, having defeated Spencerian from Cleveland, by a score of something like 50-5, after they got that high score, got tired. They will give the Tigers a run for their money as they do not wish to spoil their record.

"Pinching the Tail on the Donkey" brings as many laughs in Turkey and in France as it ever did in the U. S. A.

A. Y. W. C. A. Secretary in Harpoot, Turkey, writes that redecorating the tailless donkey broke the ice most effectively at a party of about one hundred Armenian women from a Rescue Home there. The donkey's tail goes in the same place no matter what language you speak.

In France, the donkey seems to be in disrepute, for the girls of the Y. W. C. A. Foyer at Ivry prefer a pig, and find infinite amusement in each other's blindfolded efforts to find the proper location for his curly appendage.

Don't forget that your lights must be lit within half an hour after sunset.

OLD MEN AND OLD WOMEN ARE MAKING GOOD

Hundreds of men and women well along in years have taken a most remarkable new lease on life; are young and doing more than their share of work and enjoying it, not asking favors of anyone.

There is no secret about this. Every man and woman past the prime of life can come back strong, look young, and feel young, in a short time, if they will just follow the laws of nature.

Old people THINK they are worn out because of age, and they feel that way. This is all wrong. One of our leading doctors says that looking and feeling old is due to lack of Iron and Phosphates in the blood and nerves. When people are young, they have a good supply. As they grow older and draw on his reserve, they commence to run down unless they are wise enough to recharge their blood and nerves with Phosphated Iron.

Continuing, the doctor said, "Every man and woman along in years can be made strong, keen, healthy and alert, enjoying life's pleasures again if they will simply renew their blood with Iron and Phosphates.

Phosphated Iron makes new, red blood, strengthens the nerves, rebuilds energy, renews endurance and often increases the strength of weak old people one hundred per cent in 2 weeks' time. Thousands of run-down old people who were ailing all the while have surprised their friends with a most astonishing return of health, strength and vitality simply by taking Phosphated Iron. Phosphated Iron is put up in capsules, only, don't take inferior pills or tablets. For sale by Ebert's Drug Store, and leading druggists everywhere.

NO EXCUSE FOR RHEUMATISM!

"Neutrone Prescription 99" removes the poisonous accumulations that lodge in the blood.

After one week's use you will be looking at other sufferers instead of being an object of misery and pity.

Your joints and muscles will be loose and limbered up, all aches and misery will be gone, you will feel like new.

As soon as you take "Neutrone Prescription 99" you can feel the pain and misery leaving and comfort and happiness coming in. Go to your druggist today and get a bottle, then enjoy life, feel like doing things again. For sale by

COLLEGE GLEE CLUB CONCERT FEB. SEVENTH

Oberlin, Jan 29—An event which every year more and more is attracting genuine interest among all people of the community is the concert of the Oberlin college glee club. This year the entertainment is scheduled for Saturday, February 7, at 8:30 p. m., in Finney chapel.

For over forty years the glee club has been giving its annual home concert. For a series of years this attraction was given on two consecutive nights, because the auditorium of the old college chapel was not large enough to accommodate the patrons. Since the use of Finney chapel a single performance has been the custom and although the chapel has always been well filled it is believed that all patrons have been taken care of comfortably. Present indications point to a large attendance and to the same fine interest in the home concert.

This year's organization is larger than in any previous year. Twenty-five men make up the membership of the club for 1919-20. This aggregation is being whipped into final shape for the event which is regarded by the members as the test of the year. A program is to be presented which has a wide and varied range of attractions. The larger club is making possible the rendition of some selections for male voices which was not possible with the smaller club. Never before has the glee club had such a wealth of talent for an evening's entertainment. A long program made up of the best music, supplemented by a good list of new and old nonsensical stunts is to furnish the audience for their amusement and enjoyment.

A dinner in Miss Hanna's honor given by president and Mrs King last Wednesday evening was attended by sixty guests.

She received her degree of M D from the University of Michigan in 1890 and the degree of A M from Oberlin in 1901.

MANY OBERLIN COLLEGE WOMEN EARN OWN WAY

Dean Frances J. Hosford Says It Is Not Safe For Girl Student To Start Without Any Funds What Ever

Oberlin, Jan 29—Dean Hosford has made a comprehensive study during the last few years of the opportunities open to self supporting young women desirous of obtaining a complete collegiate education. Miss Hosford points out that while self-support is difficult for a student woman it by no means impossible. There are always many women in Oberlin, who are entirely self supporting and many more who earn part of their expenses all the around or are using money which they have earned and saved.

In answer to the question "Should every young woman who desires an education attempt to obtain it by self support" Dean Hosford says "No woman ought not to try it, especially those who are not physically strong, those who have never earned money or if when earned, have never learned how to save, those whose home school fully carry them further those whose scholarship is inferior and finally, young women who do not know how to do housework or who dislike it or who do not wish to be known as working for money."

"In any average period of three years in the college 8 per cent of the women students are wholly self-supporting; 16.6 partly self-supporting, the total of self supporting women 24.6 per cent, not self-supporting but reporting money earned toward education 11.6 per cent giving a total of wholly or partly self-supporting women of 35.3 per cent.

H. F. SMITH IS SELECTED HEAD OF HUNT CLUB

Ladies to Be Guests of Club When State Game Film Is Shown February 20

Oberlin Jan 29—At a meeting held at the Park hotel Friday evening officers were elected for the Rod and Gun club for the new year. H F Smith who has given great satisfaction as president was again elected to that position. W D Gibbs was chosen vice president. L E Burgner secretary. C F Comings treasurer.

These officers constitute a committee to collect the annual dues and members are requested to pay the dues of 50 cents a year to one of these officers. It is planned to have the membership for the year in shape by the time of the special meeting on February 20 and members are asked to make payment in the course of the next ten days.

It is uncertain where the meeting will be held but arrangements will be announced later. A supper at which the ladies will be guests will precede the showing of the state game pictures under the direction of the chief game warden. These views have been shown only once and Oberlin is fortunate in securing this big feature.

Jazz Bands and Movies Satisfy The College Men

"The Young Man and His Recreation" Is Subject Of Sermon

Oberlin Jan 29 Rev Van Cer ... spoke on "The Young Man and His Recreations" at the First church on Sunday evening. He said in part

Herbert Spencer once said that an expert billiard player is a mark of a misspent youth. All work and no play makes Jack a dull boy, so runs one of our old proverbs. And it applies equally to young men and to older men.

But there comes a time when something inside prompts him to an activity ... the little the toy ... and the ... cease to ... pressure. There are some people who never cease to be children ... they merely change their toys. I believe in play ... but it must be for better that ... the little family squabble in their work and not play. It has been the staple of human activity.

It is impossible to list a group of activities, and call it work, or another group of activities and call it play. The man who sails a boat for his works. The man who sails a boat for pleasure plays. The story of the boy who was ordered to throw a pile of rocks into the river found it a hard task until the father set a stake in the stream and asked him to see how many times he could hit the stake. Then it was play and he was calling for more rocks.

Amusement is necessary amid the modern stress of life. The man was right who said that he could do twelve months work in eleven, but he could not do it in twelve. The young man who works in a shop amid whirring machinery all day needs to relax. The student who plugs for examinations and passes a triumphal test ... to let down ... recreation ... will do it. A writer on college life said recently that the preferred pleasures of college men were the pleasures of the average factory town. Jazz bands and the movies now satisfy completely the esthetic nature of our college men.

You will expect me to say something about the so-called questionable amusements. We sometimes ... that these prohibitions are marks of narrowness and bigotry. But we must remember that extreme positions are reactions against extreme attitudes. The Puritans had a reason for their prohibitions. The Methodist church had a reason for ... these prohibitions in their book of discipline. The mistake perhaps was to hold rather than to conceal and guide.

It used will ... ... card playing are as innocent a ... ... pens. It depends upon the place, the time given to them and the character of the particular occasion. A play like Barrie's "Dear Brutus" would do anybody good.

But there are things which can not be unqualifiedly approved any more than they can be unqualifiedly condemned. There are tendencies which are dangerous. The crowd that plays craps on a ... ... is not a crowd that you want to be with ... ... if you value your eternal ... There is a difference between plays like "Dear Brutus" and ... ... that I need not mention. A little house dance is different from one of these public dances where the ... ... and ... tendencies of ... are countenanced.

The whole question of recreation is a matter of emphasis. Play may keep ... fit a man for the tasks of a new day. The sum of it all is that our chief work is to produce. Recreation ... ... not an end. If a means you are safe. **If an end, neither you yourself nor the world are safe.**

CRABBE WANTS TO REPEAL OLD DRY RULE LAWS

Columbus, Jan. 29—Prohibition enforcement measures enacted by the legislature last year, which have been submitted to a referendum vote at the election next November, are to be repealed. Representative Crabbe will introduce bills in the house today to repeal the two measures bearing his name, amending the search and seizure and local option laws and providing for other prohibition enforcement provisions.

Senator Miller yesterday introduced in the senate a bill to repeal his measure creating the machinery for enforcing dry laws.

Crabbe says the repeal of the three bills, the provisions of which are taken care of in the new Crabbe enforcement bill recently passed, will save the state $100,000 that will have to be expended if they are subjected to a referendum election.

STOMACH ULCER GONE SUFFERED 16 YEARS

SAYS HIS STOMACH IS PERFECT NOW AND HIS WEIGHT HAS INCREASED

"I had ulcers of the stomach so bad that I was sent to the hospital. Treatment there finally got me on my feet, but in a few days I was down again.

"You said you wouldn't guarantee Milks Emulsion to cure a bad case of ulcers of the stomach, but I tried it anyway. If it does the work for others as it did for me, you ought not to be backward about any case of stomach ulcers. I have now taken twelve bottles and my stomach is in perfect condition. I feel better and weigh more than I have for 16 years, and I have had stomach trouble all of that time."—L. S. Walker, Greenleaf, Kan.

Thousands of people who have suffered agony from chronic stomach trouble in its worst forms, have been promptly relieved and soon restored to perfect health by Milks Emulsion. A trial will show, and a trial costs nothing.

Milks Emulsion is a pleasant, nutritive food and a corrective medicine. It restores healthy, natural bowel action, doing away with all need of pills and physics. It promotes appetite and quickly puts the digestive organs in shape to assimilate food. As a builder of flesh and strength, Milks Emulsion is strongly recommended to those whom sickness has weakened and is a powerful aid in resisting and repairing the effects of wasting diseases. Chronic stomach trouble and constipation are promptly relieved—usually in one day.

This is the only solid emulsion made and so palatable that it is eaten with a spoon like ice cream. Truly wonderful for weak, sickly children.

No matter how severe your case, you are urged to try Milks Emulsion under this guarantee—Take six bottles home with you, use it according to directions and if not satisfied with the results, your money will be promptly refunded. Price 60c and $1.20 per bottle. The Milks Emulsion Co., Terre Haute, Ind. Sold by druggists everywhere.

If Your Ears Ring With Head Noises

If you have roaring, buzzing noises in your ears are getting hard of hearing and fear Catarrhal deafness go to your druggist and get 1 ounce of Parmint (double strength), and add to it 1-4 pint of hot water and a little granulated sugar. Take 1 tablespoonful four times a day.

This will often bring quick relief from the distressing head noises. Clogged nostrils should open, breathing become easy and the mucus stop dropping in to the throat. It is easy to prepare, costs little and is pleasant to take. Anyone who has Catarrhal trouble of the ears, is hard of hearing or has head noises should give this prescription a trial.

Teachers Hint Strike If Raise Is Refused

Chicago, Jan. 29.—The Chicago Teachers' Federation today began a campaign for "health, decency and efficiency" wages for elementary teachers by delegation to its board of managers authority which would make possible the calling of a strike to enforce the federation's demands. The action followed the decision of the board of education to fix the maximum salary of grade teachers at $2,000 a year. The teachers insist the minimum salary should be $1,200 with a maximum of $2,500, reached after nine years' service. Approximately 6,000 teachers met and approved the program.

ITCHING ECZEMA DRIED RIGHT UP BY THIS SULPHUR

Any breaking out of the skin, even fiery, itching eczema, can be quickly overcome by applying a little Mentho-Sulphur, says a noted skin specialist. Because of its germ destroying properties, this special sulphur preparation instantly brings ease from skin irritation, soothes and heals the eczema right up and leaves the skin clear and smooth.

It never fails to relieve the torment and disfigurement. Sufferers from skin trouble should get about two ounces of Mentho-Sulphur from any good druggist. Use it like a cold cream.

The Best Cough Syrup is Home-made.

Here's an easy way to save $5, and yet have the best cough remedy you ever tried.

You've probably heard of this well-known plan of making cough syrup at home. But have you ever used it? When you do, you will understand why thousands of families, the world over, feel that they could hardly keep house without it. It's simple and cheap, but the way it takes hold of a cough will quickly earn it a permanent place in your home.

Into a pint bottle, pour 2½ ounces of Pinex; then add plain granulated sugar syrup to fill up the pint. Or, if desired, use clarified molasses, honey, or corn syrup instead of sugar syrup. Either way, it tastes good, never spoils, and gives you a full pint of better cough remedy than you could buy ready-made for three times its cost.

It is really wonderful how quickly this home-made remedy conquers a cough—usually in 24 hours or less. It seems to penetrate through every air passage, loosens a dry, hoarse or tight cough, lifts the phlegm, heals the membranes, and gives almost immediate relief. Splendid for throat tickle, hoarseness, croup, bronchitis and bronchial asthma.

Pinex is a highly concentrated compound of genuine Norway pine extract, and has been used for generations for throat and chest ailments.

To avoid disappointment ask your druggist for "2½ ounces of Pinex" with directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money refunded. The Pinex Co., Ft. Wayne, Ind.

Freight Traffic Is Hit Hard By Flu, Says Hines

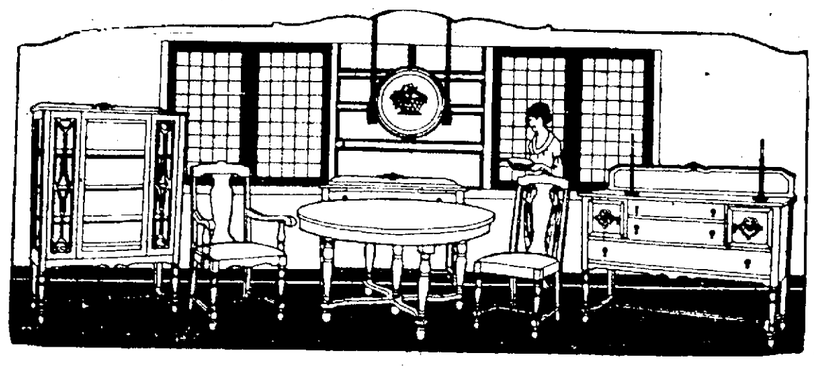

Louisville, Ky., Jan. 29—Influenza is becoming so widespread in large sections of the country, especially between Chicago and New York that it is interfering seriously with railroad traffic, according to Walker D. Hines, director general of railroads, who was here today to address the annual banquet of the Transportation club.

"Coupled with bad weather conditions," said Hines, "the influenza epidemic has dealt a serious blow to railroad operation. Not only are scores of railroad men down with the disease, but many more are forced to stay away from their duties because of the death or serious illness of members of their families.

"Reports received by me yesterday, however, are that both weather conditions and troubles due to illness are growing better."

A Starr Player Piano Phonograph or Piano
Present Prices May Advance Soon

Now is the time to secure a Starr made musical instrument. Our prices at this time are remarkably low for the highest grade musical instruments to be had. Up to this time we have been able to keep our prices down because of the enormous amount of material we had in stock prior to the many advances made during the past year or two. However, we do not guarantee our present low prices for any length of time so we certainly advise dealers and all purchasers to BUY NOW.

The Word Starr On a Musical Instrument Is a Guarantee That It Is the BEST

The new Starr Improved Filing System, the most practical and simple, consists of a set of eight drawers, each lettered and containing a record holder for eight discs.

Each and every part of the Starr has been perfected and co-ordinated into a perfect symmetry with the result that in tone, in design, and in finish the Starr is unequaled.

Call at once at the nearest store listed below. There you will find Starr made instruments and at the prices quoted today they are without a doubt remarkable bargains. Compare STARR made musical instruments with all others. Compare our present prices with those of other instruments "supposed" to be as good—then you will readily undertand why the PRICE OF THE STARR MUST GO UP SOON.

GERMAN FORCES EVACUATE SCHLESWIG-HOLSTEIN ZONE

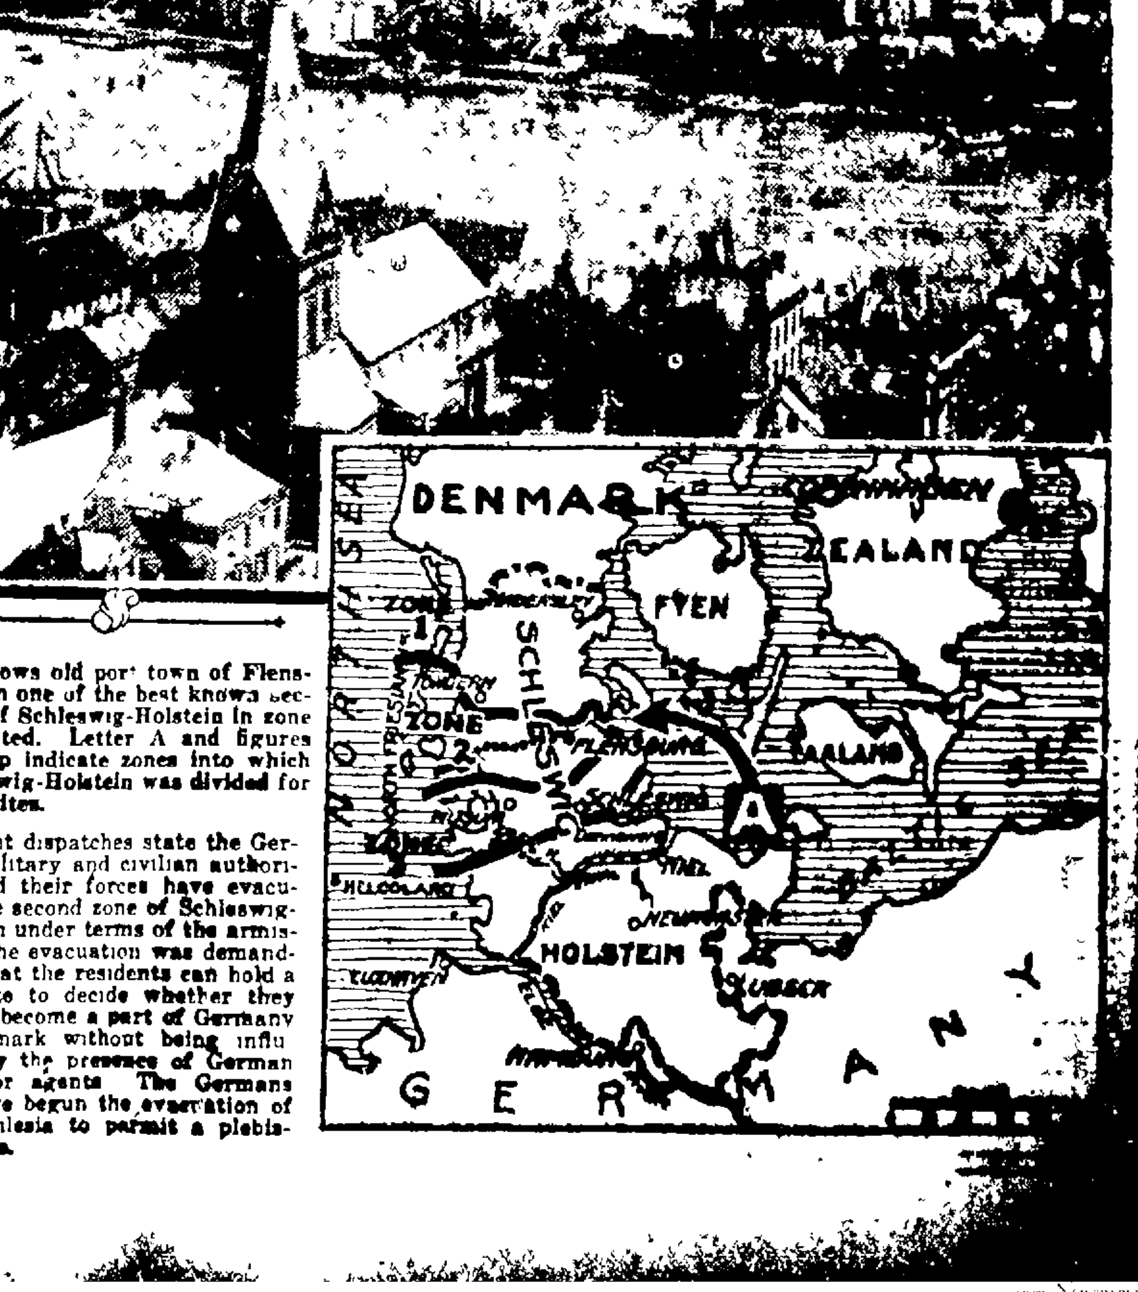

Photo shows old port town of Flensburg in one of the best known sections of Schleswig-Holstein in zone evacuated. Letter A and figures on map indicate zones into which Schleswig-Holstein was divided for plebiscites.

Recent dispatches state the German military and civilian authorities and their forces have evacuated the second zone of Schleswig-Holstein under terms of the armistice. The evacuation was demanded so that the residents can hold a plebiscite to decide whether they wish to become a part of Germany or Denmark without being influenced by the presence of German forces or agents. The Germans also have begun the evacuation of upper Silesia to permit a plebiscite there.
